Subject: RE: Costs of Subway Construction

Yes, and I need to make you and Joan aware that it is the intention of Rick Thompson and Gary Carr – with the assistance of SSP, Jim, etc. – to try to answer many, but not all , of the questions which James forwarded to us. There's been no clear corporate position taken on this, and I repeat my worry that, among other things, if/when we provide information on these matters, it will legitimize the ill-conceived proposal which is being pursued by City Planning and, one way or the other, the word will be that the TTC endorses it. I sure don't my name associated with this stuff.
